

SUNSHINE PLAZA

Dear Retailers,

### **Re Emergency Light Testing**

Please be advised that emergency lighting testing will be conducted throughout the centre over the coming weeks. This is part of our commitment to ensuring a safe environment at Sunshine Plaza.

Testing will take place during business hours from **Tuesday, 24 March 2026 through to Friday, 3 April 2026**, within a two-week window. During this time, our contractors Johnson Controls may require access to your tenancy to inspect and test emergency lighting systems.

The testing will not be disruptive and should not impact your operations.

If your store has specific access requirements, please notify Centre Management as soon as possible so arrangements can be made.

Should you have any questions or concerns, please don't hesitate to contact Building Services Manager Dean Pickens on +61 419 728 331.

Best regards,

Centre Management
